

In search of knowledge

The first International Day of Children's Universities will take place on Thursday, 11 April 2024. To mark the occasion, we have prepared something very special for you: Together with children from third to sixth grade from very different countries, you can embark on a quest for knowledge.

Where is the knowledge - have you seen it? Support our children's Unidetectives and help them find it! Because only if you take part in our interactive theatre, answer the questions and set the direction in which the detectives should move, can you successfully complete the search for knowledge together with them!

When? 11.04.2024, ab 16.00 Uhr

Please log in at <https://ku.u-show.live/>

Technical requirements: All you need is a stable internet connection, a device (mobile phone, tablet or computer) with speakers, microphone and camera. The interactive online theatre will take place via livestream. No personal data will be recorded, but the event will be saved as a video.

The interactive live event takes place synchronised in German and English.
